CELEBRATING 40+ YEARS OF PARTNERSHIP!

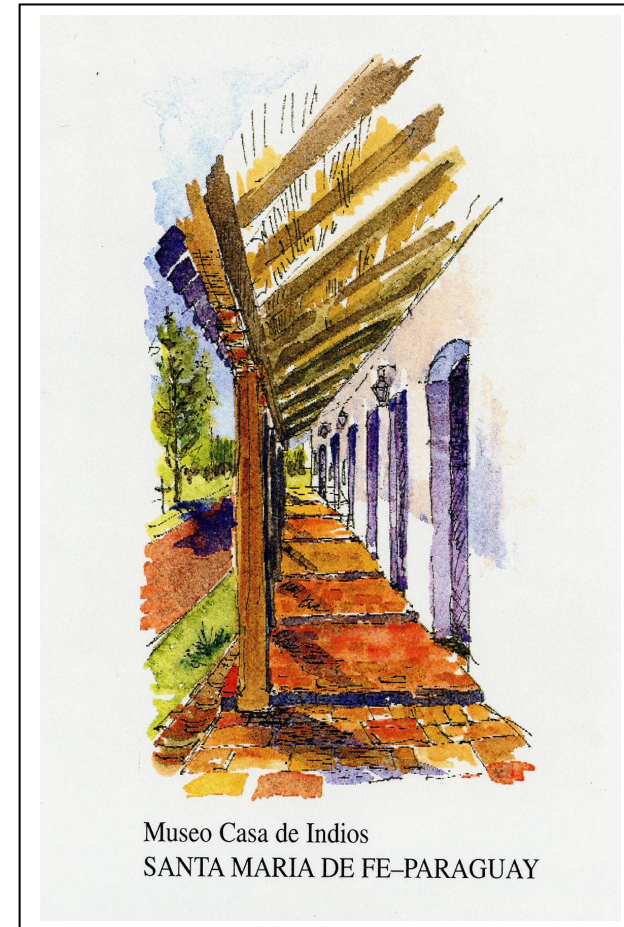

The **Kansas Paraguay Partners (KPP)**, and its counterpart the **Comité Paraguay Kansas (CPK)**, were formed in 1968 as chapters of the international organization **Partners of the Americas (POA)**.

Partners of the Americas is the western hemisphere's largest private, completely apolitical, volunteer organization. Partners was established in 1963 to promote cultural understanding, and to foster inter-American economic and social development. In all, more than 20,000 individuals in 45 U.S. states are united, through 60 partnerships, with 31 Latin-American and Caribbean countries.

The Kansas - Paraguay connection includes a strong agricultural base, similar size, a landlocked location in the center of their continents, and strong Mennonite connections. Our membership is diverse, representing all walks of life, professions, ages, and interests.

Since its formation, the Kansas Paraguay Partnership has developed many productive and effective grassroots projects which - through joint committee coordination - complement and benefit both sides of the partnership. The **KPP/CPK** partnership is one of the strongest partnerships in Partners of the Americas. We welcome your membership and participation!
